Cybersecurity challenges today

In the cybersecurity field, there's an increase in threats despite the advancement of protective technologies. Recent data breaches highlight the importance of innovative solutions for protecting sensitive information.

Data breach

815 000 000 people

Indian Council of Medical Research (ICMR) (October 2023): Affected 815 million people, compromising sensitive personal data related to COVID testing. The breach underscored the massive scale of potential data exposure, even in such critical sectors as healthcare.

Data breach

62 000 000 people

MOVEit (June 2023): Personal information of over 62 million individuals was compromised due to vulnerabilities in file transfer software, highlighting the cascading effect of cybersecurity weaknesses across various sectors.

Data breach

200 000 000 people

X (formerly Twitter) (January 2023): Impacted 200 million users with a data leak including email addresses and other profile information. This breach raised concerns about how easily malicious actors could use such information for further attacks.

Data breach

37 000 000 people

T-Mobile (January 2023): Personal data of 37 million customers were exposed, revealing the challenges even telecommunications giants face in protecting customer data.

Boosting Cybersecurity Innovation through ICO

Cybersecurity startups bring valuable innovations but face a range of challenges.

📌 Key challenges

High competition from established players

Limited resources, making development and research difficult

Difficulties in gaining a market foothold due to strict regulations and the need for trust

👍 Solutions through ICOs

Mobilizing resources to support startups

Strategic partnerships to strengthen market position

Simplifying market access through the introduction of our cryptocurrency

Our ICO is not just a fundraising initiative; it's a commitment to advancing the next wave of innovation in cybersecurity.

Multi-module cryptocurrency ecosystem

Value proposition for startups

- Startups use our coin as payment, gaining capital for growth and enhanced visibility within the community.
- A payment system based on our cryptocurrency attracts forward-thinking clients.

Benefits for coin holders

- Our coin offers holders direct benefits from investments in cybersecurity.
- The growth of startups increases demand and the value of the coins, enriching the holders' portfolio.

Creating a symbiotic ecosystem

- Mutual growth of startups and the coin's value sustains a healthy economy.
- We're building a community that brings together innovators, investors, and users to advance security in the digital world.

The Uniqueness of Our Cryptocurrency

Stability and Growth

With a minimum of \$1 and growth potential, our coin is an innovative financial instrument.

Sustainability

Retiring used coins maintains their scarcity and value stability.

Exclusivity

A limited issue of 1.2 million units creates scarcity, increasing value.

Fees

Transaction fees ranging from 1% to 5% support the project and contribute to reducing the total number of coins, reinforcing a deflationary model.

Fundamentals of value: from stability to growth

Starting price: \$1

Accepted on partner websites

Our partners provide services for a fixed price and commit to accepting our coin, ensuring price stability.

Demand increases value

We plan to work only with quality partners, and there will always be demand for their services, which means the price of our coins will rise.

Scarcity enhances value

We have developed a clear token burning mechanism that allows us to maintain a constant shortage of tokens.

Our coin is backed by real value through acceptance by our partners. It is designed for growth, supported by constant demand and limited supply.

EXCHANGE AND AVAILABILITY

We aim for the global availability of our coin by listing on various exchanges, ensuring ease of trading and increasing liquidity.

- ✓ Listing on exchanges enhances liquidity
- ✓ Broad availability of the coin

EXCLUSIVE MECHANISMS

The coin can be purchased directly on our website or through exchanges. Exchanging coins for fiat is limited to partner projects, supporting internal value.

- ✓ Purchase on the website and through exchanges
- ✓ Exchange reserved for partners

COMMUNITY

We are actively building a community through giveaways, contests, and other initiatives, ensuring the engagement and interaction of coin holders.

- ✓ An active community around the coin
- ✓ Giveaways and contests for coin holders

Strategic Launch and Early Access ICO

1

Early access for partners

As a token of appreciation to our partners, we offer exclusive access to 250,000 coins at a special price.

2

Public Sale Start

After early access, we open sales to a broader range of investors with a slight price increase to reflect the growing demand.

3

Stimulating growth through referrals

Activating a referral program to stimulate community growth and expand reach, offering bonuses for attracting new participants.

Sustainable Development and Community Engagement

03. DYNAMIC SALES STRATEGY

Временная пауза в продажах для поддержания ценности монеты и стимулирования их использования

01. CONTINUED SALES

After the successful sale of the first 500,000 coins, the next batch will be offered at \$1 per coin, maintaining incentives for the community.

04. LONG-TERM VISION AND FLEXIBILITY

We reserve the right to additional coin issuance to adapt to future needs and opportunities within the ecosystem.

02. REFERRAL PROGRAM

Reducing the reward to 10% to maintain activity and community engagement.

Partnership for Mutual Success

We invite all cybersecurity sector players ready for innovation to partner with us.

Partnership process

-  Filling out a form on the website as the first step towards collaboration.
-  Thorough selection and interviews to ensure shared goals.
-  Simplified integration of our solutions into your business.

Mutual growth and benefits

-  Financial flexibility and the option to exchange coins for currency.
-  Aiming for long-term collaboration through formal agreements

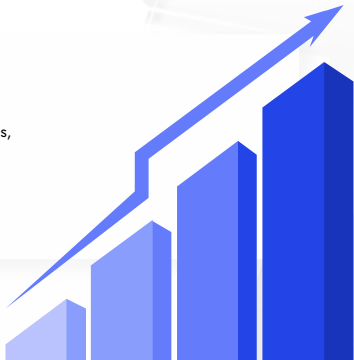

Our goal is to create a strong partnership ecosystem where each participant contributes to security in the digital world.

Join Our Vision

Our coin carries a unique value proposition,
evolving into a key tool for the future of cybersecurity.

Strategic ICO stages:

From early access to open sales,
each stage is designed for
maximum engagement and
reward for participants.

INVESTORS

Become part of a revolutionary project
by investing in a secure future.

STARTUPS

Join us to receive support in implementing
your innovative solutions.

COMMUNITY

Your active participation and contribution
are invaluable for our mutual growth.

We aim to create an ecosystem that
supports cutting-edge technologies and
ensures digital security.

Join us today to build the future
together!
